Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 9-11 are pending.

Terminal Disclaimer

1. The terminal disclaimer filed on April 14, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of a patent issuing from 10/288,590 (US Pat 7,053,124) has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim interpretation

2. The following interpretation is presented for the remaining issues in this Official Office Action. The claims are directed to an aerosol composition prepared from a biliquid foam, an aqueous phase and a propellant. The instant case is a continuation in part of the application of application serial number 10/288,590. The instant application includes the following subject matter not set forth in 10/288,590:

Page 1, last ¶ ;
Page 2, 1st ¶ ;
Page 7, line 13, to page 9, line 13;
Examples 11-14, page 14, line 31, to page 16, line 27.

The scope of the instant claim 9 includes subject matter with an effective date of the instant filing date of November 6, 2003 including instant examples 11, 13 and 14 employing carbomer.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1712

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 9 is rejected under 35 U.S.C. 102(e) as being anticipated by Moodycliffe et al, US 6,881,757. Moodycliffe et al (examples and claims) disclose aerosols reading on the claimed compositions. Moodycliffe et al '757 (column 2, lines 31 et seq) discloses the propellant gas is a hydrocarbon gas. Petroleum gas (instant claim 3) is a hydrocarbon gas. Moodycliffe et al '757 (column 4, lines 10 et seq; column 5, line 1 et seq, lines 25 et seq ; and claims) discloses compositions that employ biliquid foam comprising oil soluble materials if about 18, 16 and 0.1 % by weight making up the majority of the biliquid foam, 10 % by weight propellant and the balance water. Said concentrations read on those in instant claim 5. Moodycliffe et al '757 (column 3, line 59 et seq) discloses cationic surfactants and Moodycliffe et al '757 (column 6, lines 22-26) disclose the aerosols form products of surface and air treating compositions including polishes, cleaners, and fragrancers. Moodycliffe et al '757 (column 4, lines 38-64) discloses making the aerosols in a pressurized container, which reads on aerosol can as set forth in claim 10.

5. Claim 9 is rejected under 35 U.S.C. 102(e) as being anticipated by Moodycliffe et al, US 6,749,673. Moodycliffe et al '673 is considered cumulative to the above reference and the basis of the rejection is substantially the same. See column 3, lines 56 et seq; column 4, lines 14 et seq; column 5, lines 1 et seq; and claims.

Allowable Subject Matter

6. Claims 10-11 are allowed.

Response to Arguments

7. Applicant's arguments filed April 14, 2006 have been fully considered but they are not persuasive.

8. Applicants (page 4) assert the rejections under 35 USC 102(e) must be withdrawn in view of the amendments since the claimed subject matter finds support in the original disclosure of the parent application. It is noted that the claimed compositions and methods are open to further disclosure breadth and based on a specification, which contains additional subject matter. The effective date is November 6, 2003. Therefore, the scope of the instant claims remain rejected over the above references.

9. Regarding the presentation of a declaration under 35 USC 1.131, said declaration has yet to be filed at the time of this Office Action.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1712

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
